Description

Gents 1964 Omega wrist watch. The watch has a hand-winding movement, calibre 269, which is working nicely. The movement is signed Omega and it has the serial number 21,608,930 which dates it back to 1964. The watch measures 32.5mm diameter excluding the winding crown and the lugs. The case is gold plated. There is a 3mm square patch of wear to the side of the case, and a little along the edges of the lugs. The stainless steel case back is signed inside with the Omega triangular logo, 121.001-63, which is the correct model for the 269 movement, and it confirms the date of manufacture. The winding crown is a later plain replacement. The lens is in good condition. The signed dial is in lovely condition with original hands, a subsidiary seconds dial and outer minute markers. A new leather strap has been fitted. The watch comes in a new presentation box.
