Description

Circa 1930-1940 this multi coloured glass lamp is egg shaped and fitted to a purpose made base and is in very good condition. It measures 41cm in height in total and the widest section is approximately 67cm in diameter. The lamp has a signature shown in photograph 8 but it has proved impossible to locate the manufacturers and thereby give more details of the age and country of origin. We normally send all our lights to an electrician to replace old wiring but due to current circumstances this isn't possible. However this lamp comes with old wiring with a slimline on/off switch fitted to it and a very old plug clearly showing it has had a recent PAT test. Postage and packing within the UK mainland only is included in the price and for outside areas or abroad please contact us for a delivery quote.
