

SA686823

Gents 1940s Enicar wrist watch

Price

Sold**Item Reference: SA686823****Date of manufacture: 1940**

Description

Gents 1940s Enicar wrist watch. The watch has a signed 17-jewel hand-winding movement, probably calibre 410, which is working nicely. There are empty retaining screw holes in the movement which you can see in the photo, these are designed to be empty as the movement is held in place by the retaining ring. The watch measures 31mm diameter excluding the winding crown and the lugs. The case is stainless steel and there is light surface marking but overall very acceptable. The winding crown is a later replacement. The lens is in good condition. The signed dial has a subtle two tone finish. A new leather strap has been fitted. The watch comes in a new presentation box.
