

SA687403

Antique Omega gun metal pocket watch

Price

Sold**Item Reference: SA687403****Date of manufacture: 1920**

Description

Antique Omega gun metal pocket watch. The watch has a stem-winding movement which is working nicely. The movement has been identified as an Omega although it is not signed visibly but it is more than likely signed underneath the dial, which was the usual procedure at the time. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gun metal with rose gold embellishments. It is in good condition, just surface marking which is entirely normal with gun metal cases. The acrylic lens is in lovely condition. The enamel dial has several hairline cracks but they are barely visible to the naked eye. Blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
