

SA687600

Late 1960s Junghans Electronic wrist watch

Price

Sold**Item Reference: SA687600****Date of manufacture: 1960**

Description

Late 1960s Junghans Electronic wrist watch. The watch has a 600.10 movement (with an electronically controlled balance motor and hacking) which is working nicely. The movement is signed with the Junghans name and it is all protected by an inner cover. The watch measures 35.5mm wide excluding the winding crown and 41mm high. The case is stainless steel. It has surface marking but not too detrimental. The case back is signed Junghans Electronic. It also states that the watch is waterproof but, as with any vintage watch, it should be kept away from water and moisture. The lens is in good condition. The signed and textured black dial is in its original finish with original hands, seconds sweep and outer minute markers. A new leather strap has been fitted. The watch comes in a new presentation box.
