Description

9ct gold Art Deco wrist watch, 1933. The watch has a Swiss 15-jewel hand-winding movement which is working nicely. You will see there are two empty holes in the movement, these are for retaining screws which, in this case, are not required because of the shaped case back. The watch measures 22mm wide excluding the winding crown and 32mm high excluding the fixed lugs, it would suit a slimmer wrist. The case is 9 carat rose gold and there are hallmarks inside the hinged case back for London 1933. Overall the case is in good condition, just a slight indentation to the back. The curved lens is in good condition. The dial has a subtle textured finish and it is in lovely condition, blued steel hands, a subsidiary seconds dial and inner minute markers. A new leather strap has been fitted. The watch comes in a new presentation box
