Dimensions

Height = 148.6 cm (58.5")

Width = 63.5 cm (25.0")

Depth = 35.6 cm (14.0")

Description

An impressive early C20th large pair of Japanese bronze cranes; life size with a verdigris patination; realistically sculptured with detailed feathers, scaled legs and webbed feet. The large male bird standing alert with his neck and head raised; the female with her neck arched in a pruning position. The underside of the feet have the unusual and useful feature of iron stakes to go into the ground to hold firm. Japanese circa 1920 Good condition
