Description

SUPERB, highest quality, heavy grade Victorian silver plated coffee pot of a lovely shape and design. The plating is so good it is hard to tell it is plate rather than solid silver. It is though plate and plated on brass. The handle has the bone inserts at both ends to stop the handle getting hot. The decoration and engraving are both superb and crisp. This is about as good a silver plated coffee pot as you'll find. SIZE; 6" diameter by 12" high CIRCA; 1850 - 1870
