Date of manufacture: 1930

Description

1930s Swiss pocket watch. The watch has a nice quality Swiss 15 jewel, stem-winding movement which is working well. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and was made in England by the Eclipse Watch Case Company. The case has light surface marking from use but overall it is in nice condition for a 1930s piece. The case back has engraved initials. The acrylic lens is in nice condition, as is the white enamel dial with original blued steel hands. The watch comes in a new presentation box.
