Description

A pretty Fruitwood (Apple) Candlestand from the early 19thc, it stands on three shaped legs, has a simple turned round centre coloumn...(I like that you can still see some of the original bark from the tree on the coloumn) and an octagonal top....good colour and of a very useful size for a lamp or for use as a wine table / candlestand. French. C1800-20.
