Description

A 1920s Satisfaction pocket watch & chain. The watch has a nice quality 15 jewel Swiss stem-winding movement which is working nicely. The watch measures 55mm diameter excluding the winding stem so a little larger than a usual 50mm diameter pocket watch. The chunky case is nickel and it has screw-on bezel and case back, a nice sign of quality. The case has light surface marking from use but overall it is in nice condition. The acrylic lens is in nice condition. The white enamel dial is signed Satisfaction and is in nice condition with original blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes on a vintage chain which measures 26 cm including the clasps. The watch & chain will be sent in a new presentation box.
