18CT Gold Diamond Daisy Cluster Engagement Ring

Price

Sold**Item Reference: SA691224****Date of manufacture: Edwardian**

Description

RESERVED FOR MARION A pretty daisy cluster ring set with seven sparkling round-cut diamonds, each approximately 2mm in diameter. The gemstones are bright and sparkly, at a conservative estimate around 0.2 total carat weight. A perennially popular style, it's hard to be too accurate about age without a dated hallmark but somewhere within Edwardian-Art Deco parameters. In very good vintage/antique condition. The inside of the shank is stamped 18CT. Size O (UK), 7 (US). The flower head is 7mm in diameter and sits 3mm above the finger. Weight: 2.1g.
