Description

Antique 1906 Waltham pocket watch. The watch has a 15 jewel stem-winding movement, grade 620, which is working nicely. The handsomely patterned movement is fully signed and the serial number 15,326,252 dates it back to 1906. The movement is protected by an inner hinged cover. The watch measures 50.6mm diameter excluding the winding stem and the crown. The case is gold plated and is the Star model made by the Dennison Watch Case Company who made the majority of the cases for Waltham UK. The case has minor marking from use and light wear to the bottom edge of the back but overall it is in nice condition for a 1906 piece. The glass lens is in nice condition with only minor marking from use. The white enamel dial is in nice condition and it has its original blued steel hands. The watch will be sent in a new presentation box.
