Description

Pair of Geo.III silver candlesticks; of fine height on circular loaded bases with removable sconces. The bottom of the candlesticks and the capitols at the top have fluted decoration, and the bases, highpoints and sconces have a super ropework border. The rest of the areas are completely plain. These are great examples of plain Georgian silver design with just enough detail to make them interesting; really elegant, and wonderful quality. Sheffield. 1800. John Green & Co. Height of each 29cm
