Description

A pair of horses which are possibly Yuan or early Ming dynasty. (1260-1500) They are constructed from black terracotta. I bought these from a reputable auction house outside London who were holding an antique Asian art sale. The surfaces have the usual wear that you would expect and one tail has been broken at sometime and has been restored. An interesting and very decorative pair. We can despatch worldwide and would calculate the cost to buyer. Payment by Paypal or bank transfer
