

SA694377

Antique 1910s pocket watch

Price

Sold**Item Reference: SA694377****Date of manufacture: 1910**

Description

Antique 1910s pocket watch. The watch has a stem-winding movement which is working nicely. The watch measures 54mm diameter excluding the winding stem and the loop. The case is nickel and overall it is in good condition with just general light marking. The watch glass is in good condition, just a light circular mark where an old label has been on the glass for many years. The dial has blued steel hands, a subsidiary seconds dial and an outer minute track. There are a couple of hairline cracks but they are very faint, and difficult to see with the naked eye. The watch comes in a new presentation box.
