Description

Antique silver fob watch and chain. The watch has a stem-winding movement which is working nicely. The movement is protected by an inner hinged cover, it has a couple of small "dings" and some surface scratching. The watch measures 37mm diameter excluding the stem and the loop. The case is silver and there are Continental hallmarks inside both of the case backs for 935 silver. The front of the watch is in good condition, the case back has some fairly gentle unevenness. The watch glass is in good condition. The dial has three hairline cracks but they are faint and quite difficult to see with the naked eye. The hands are pin-set. The watch comes with a pretty later single albert, 20cm long. The watch and chain come in a vintage box.
