Depth = 1.5 cm (0.6")

Description

An absolutely charming diminutive late-19th century pierced giltwood frame. This Florentine-design miniature frame — complete with clear glazed panel — retains its original water-gilded finish, having a rich colour and a glowing lustre shine. A fine example from c.1890s, and one that would be perfect for housing a picture or photograph, or it could just be displayed as a work of art on a table or the wall. . . .
