Description

A pair of lady's equestrian riding boots dating from the early part of the 20th century. They are full of character, having a slightly mottled finish with a few minor scuffs and blemishes consistent with their age. They come with their original beautifully-crafted solid-beech boot trees, and they've been re-soled in recent times with the soles now being virtually new and in perfect condition. The boots are 45.5cms tall, and have an overall height of 59.5cms including the trees. . . .
