Description

Antique ladies Waltham fob watch, 1908. The watch has a seven jewel stem-winding movement which is working nicely. The movement is fully signed and the serial number 17,301,992 dates it back to 1908. The movement is protected by an inner hinged cover. The watch measures 34mm diameter excluding the winding stem, crown and loop. The case is gold plated and was made by the English company, the Dennison Watch Case Company, a prolific supplier who made the majority of cases for Waltham UK. The case has a couple of small knocks to the back but overall is in nice condition for such an early piece. The acrylic lens is in good condition. The signed dial is in lovely condition. The watch comes in a new presentation box.
