Description

Gents 1950s Titoni Airmaster automatic wrist watch. The watch has a signed ETA 1258 automatic movement which was in production for just two years from 1953. This is a good quality 25 jewel movement which is working nicely. The watch measures 35mm diameter excluding the winding crown and the lugs. The case is gold plated, there is some rubbing, mainly to the lugs, but not overly noticeable to the naked eye. The signed stainless steel case back states that the watch is waterproof but, as with any vintage watch, it should be kept away from water and moisture. The lens is in good condition. The signed dial is in lovely condition with original dauphine shaped hands, centre seconds sweep and date display (not quickset). A new leather strap has been fitted. The watch comes in a new presentation box.
