Description

Antique 1920s Cyma pocket watch. The watch has a stem-winding movement, probably an unsigned Cyma, which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold filled and it is in good condition with just light surface marks, nothing serious at all. The watch glass has a couple of minor marks but you have to look carefully to see them. The dial is in lovely condition and it has its original hands. The watch comes in a new presentation box.
