Description

Waltham Sterling pocket watch and chain. The watch has a Sterling grade seven jewel stem-winding movement which is working nicely. The movement is fully signed and the serial number 10,874,695 dates it back to 1901. The watch measures 57mm diameter excluding the winding stem and the loop. The case is coin silver which is an alloy of 90% silver and 10% copper, the same as that used for United States silver coins. The case is in lovely condition, just light surface marks but nothing serious at all. The glass lens is in good condition. The signed dial is in beautiful condition and has blued steel hands and outer minute markers. The watch comes with a single silver chain, 30cm long including the T-bar and the clasp, and also an antique silver snooker fob, 'Shuttleworth Cup for Winner, T L Leedham'. The watch and chain will be sent in a new presentation box.
