Description

1920s "The Reliable" pocket watch. The watch has a Swiss stem-winding movement which is working nicely. The watch measures 51mm diameter excluding the stem and the loop. The case is nickel and has a screw on front & back, a nice sign of quality. It has light surface marking from use but overall it is in nice condition for a 1920s piece. The watch glass has light surface marking but is very acceptable. The white enamel dial is signed The Reliable ZNF. It is in lovely condition with original blued steel hands. The watch comes in a new presentation box.
