Description

Gents 1950s Cortebert wrist watch. The watch has a signed calibre 677 15-jewel hand-winding movement which is working nicely. The watch is a good wearable size at 39mm diameter excluding the winding crown and the lugs. The case is chrome plated and it has light marking but overall is in good condition for such an early piece. Original Cortebert winding crown. Stainless steel case back with light surface marks. The lens is in lovely condition. The signed dial is in its original finish with original hands. There is some light freckling across the dial but not too detrimental at all. A new leather strap has been fitted. The watch comes in a new presentation box.
