Description

This pair of antique Swedish mahogany armchairs with leather upholstery are of Chippendale design & I would date them to around the 1890-1910 period. They are in lovely original condition, with feather filled cushions & I believe the leather could be original. The solid mahogany frames are intricately carved above gadrooned edges & sit on claw & ball feet. This lower carving goes all the way around the chairs & even on the backs. The leather upholstery, which is naturally aged is all in good condition & we have just had it professionally revived & polished. Check out the shape of the frames behind the back cushions & also how the leather is hand studded on to the frames. The arms roll over the sides slightly & they are carved on the fronts. These armchairs are extremely high quality. Width – 32 inches, 82 cm Depth – 31 inches, 79 cm Height – 32 inches, 82 cm Seat height – 16 inches, 41 cm
