Description

1930s Sackville pocket watch from the General Watch Company. The watch has a stem-winding movement which is working nicely. The watch measures 47mm diameter excluding the winding stem and the loop. The case is rolled gold and is in good condition, just one small 1mm knock to the side but barely worth mentioning. The glass lens is in good condition. The signed dial is in its original finish and it is in lovely condition with original blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
