Description

Antique Revue pocket watch & chain. The watch has a Swiss signed 15-jewel stem-winding movement which is working nicely. The watch measures 54mm diameter excluding the stem and the loop so a little bigger than a standard 50mm pocket watch, and overall it has a chunkier feel and appearance than a standard pocket watch. The nickel case is in lovely condition with only minor marking from use. It has a screw-on bezel and case back with milled edge, a good sign of quality. The watch glass has a surface scratch, about 1cm long. The signed dial has blued steel hands, a subsidiary seconds dial and outer minute markers. The dial is in nice condition. The watch comes on a graduated nickel albert chain which measures 30 cm including the T bar and clasp. The watch and chain come in a new presentation box.
