Description

Very decorative large antique urn with some beautiful details & some wonderful shapes. It's very much of the Art Nouveau period in age & design. I'm fairly sure that it's solid bronze & it's very heavy. You can see in the images that there is some rubbing in places on the figures. Please enlarge all of the images to see the amazing details. I would say this vase is French & it will date from around the 1880-90's period. Approx Width – 13", 33 cm Height – 14.5", 37 cm
