Description

Set of five very stylish large antique Neoclassical brass wall lights in good original condition & showing natural wear to the brass. You can only see four in the group image, but there are five. They are very unusual & I've never come across this model before. Check the sizes, because they are quite large & check all the details. We could sell these in pairs, although it's a shame to split them up & also, what would we do with the single one left. I think one could call these industrial lights & they could have come out of a theatre, cinema or some large hall. I can't date them exactly, but would think they date from the 1900-10 period. Width – 14 inches, 37 cm Depth – 7 inches, 18 cm Height – 27 inches, 69 cm
