Description

Gents 1940s Hefik wrist watch. The watch has a 16-jewel hand-winding movement, signed, Hefik-Don, which is working nicely. The watch measures 28mm wide excluding the winding crown and 28mm high excluding the lugs... although designed as a man's watch, it would suit a slimmer wrist. The case is stainless steel and it is in good condition, as is the lens. The signed dial is in good condition with original blued steel hands. The watch comes on a Bonklip bracelet, quite possibly original to the watch. The watch will come in a new presentation box.
