Description

Gents 1950s Roamer wrist watch. The watch has a signed 17-jewel hand-winding movement, an in-house MST 402, which is working nicely. This calibre of movement was made between 1949 and 1960. The watch measures 35mm diameter excluding the winding crown and the lugs. The case is chrome plated and overall it is in good condition for a 1950s piece, just some light surface marking. The case back is stainless steel. The lens is in good condition. The signed dial is in very nice condition with original hands (the original in-fill has been removed at some stage), a subsidiary seconds dial and outer minute markers. A new leather strap has been fitted. The watch comes in a new presentation box.
