Description

Gents Roamer wrist watch, c1950. The watch has a signed 15-jewel hand-winding movement, an in-house MST 364, which is working nicely. The watch measures 32mm diameter excluding the winding crown and the lugs. The case has a plated bezel, alloy centre and a stainless steel case back, a combination seen from the second half of the 1940s. It is in good condition with just light marking. The lens is in good condition, as is the signed dial with original hands, a subsidiary seconds dial and outer minute markers. A new leather strap has been fitted. The watch comes in a new presentation box.
