Description

Circa 1910-1940 a pair of very unusual, and beautifully made leaf shaped brass candle sconces, completely undamaged. They are much brighter in colour in reality, the curved shape causes surrounding colours to reflect back on the newly cleaned brass. The sconces measure 23.5cm in length; 11cm at the widest part and the depth from the back to furthest part of the candle holder is approximately 10cm. The sconces have been polished but not lacquered, and there are no signs of repair or restoration anywhere. Postage and packing within the UK mainland only is included in the price and for remote areas or abroad, please contact us for a delivery quote.
