

SA704619

Antique Omega pocket watch and chain

Price

Sold**Item Reference: SA704619****Date of manufacture: 1920**

Description

Antique Omega pocket watch and chain. The watch has a stem-winding movement which is working nicely. The movement is not visibly signed but it can be easily identified by the plates and design of the movement. The movement is protected by an inner hinged cover which is signed with the Omega name and symbol. The watch measures 52mm diameter excluding the long stem and loop. The case is nickel. The front is in good condition while there is some unevenness to the case back. The acrylic lens is in good condition. The enamel dial has four or five short faint hairlines but you have to look quite carefully to see them. Blued steel hands. The watch comes with a single albert chain, 25cm long including the T-bar and the clasp. The watch and chain come in a new presentation box.
