Description

1903 Waltham full hunter pocket watch. The watch has a stem-winding movement, Traveler grade, which is working nicely. The gilt movement is fully signed and the serial number 12623610 dates it back to 1903. The movement is protected by an inner hinged cover which has some surface scratches on it. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and is the Star model from the Dennison Watch Case Company, a prolific case manufacturer who supplied Waltham UK. Overall the case is in very nice condition, just one small bruise to the side. The winding crown pushes in to open the front cover. Inside there is an acrylic lens which is in good condition. The signed dial is in very nice condition and it has its original blued steel hands, a subsidiary seconds dial and an outer minute track. The watch will come in a new presentation box.
