

SA706170

Gents 1950s MuDu Doublematic wrist watch

Price

Sold**Item Reference: SA706170****Date of manufacture: 1950**

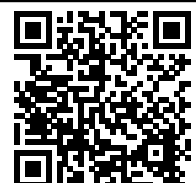

Description

Gents 1950s MuDu Doublematic wrist watch. The watch has an automatic movement, Felsa 4000, which is working nicely. You can sometimes hear the rotor moving around on its ballbearings, this is how it was made and it is nice and smooth. The watch measures 32mm diameter excluding the winding crown and the lugs. The main body of the case is gold plated while the screw-on case back is stainless steel. There is a mark to both sides of the case and one lug tip has a graze but you need to look quite carefully to see these marks. The signed case back has some scratches. Original MuDu winding crown. The lens is in good condition. The dial is in its original finish, there is some light freckling across it. Original hands and seconds sweep. A new leather strap has been fitted. The watch comes in a new presentation box.
