Description

Antique Swiss silver pocket watch, circa 1907. The watch has a key-winding movement which is working nicely. The movement is protected by an inner hinged cover. A winding key is included. The watch measures 53mm diameter excluding the stem and the loop. The silver case has Birmingham hallmarks for 1907 and the case maker's mark for the Dennison Watch Case Company, a prolific case manufacturer based in England who made cases for various watch manufacturers. The case has some surface marking from use and some fairly unevenness to the back. The watch glass is in nice condition. The white enamel dial has a patch of short hairline cracks at number 4 and another at 10 o'clock but not too detrimental to the naked eye. The watch will be sent in a new presentation box.
