Dimensions

Height = 84 cm (33.1")

Width = 54 cm (21.3")

Depth = 46 cm (18.1")

Description

This antique solid mahogany desk chair has a very clever design & mechanism. It can sit extra close in the middle of a kneehole desk, because the arms are set back from the seat. What's more, it has a very clever metal mechanism under the seat, which enable the seat section to slide forward in front of the legs. It has a curved back, with struts below & sits on shaped legs. This desk chair has the appearance of a navel captains desk chair & has quite slim proportions. It did have an original leather seat which just lifts off. The leather was quite torn & perished, so we had it re-upholstered in deep buttoned leather & hand coloured, so it looks original to the piece. Width – 21 inches, 54 cm Depth – 18 inches, 46 cm Height – 33 inches, 84 cm Seat height – 19 inches, 49 cm

Internal Ref: 934
