Description

Small antique fob watch. The watch has a stem-winding movement, probably Swiss, which is working nicely. The movement is protected by an inner hinged cover which has a graze and some scratching. The watch is small at just 30mm diameter excluding the winding stem and the loop. The case is gold plated and was made by the Illinois Watch Case Company. The case is in good condition, just a couple of pin pricks to the back and light surface marks. The watch glass is in lovely condition. The dial is in lovely condition. The watch will come in a new presentation box.
