

SA709777

Nineteenth Century Pair of Electrostatic Discharge Tongs

Price

Sold**Item Reference: SA709777****Date of manufacture: 1850**

Dimensions

Height = 3 cm (1.2")

Width = 10 cm (3.9")

Depth = 40 cm (15.7")

Description

For sale, a nineteenth century pair of electrostatic discharge tongs. Comprised of a glass handle with brass shaft and hinged tongs with discharge spheres at each end, these interesting and quality examples would have been used in conjunction with a Ramsden, Nairne or Wimshurst type electrostatic generating machine as a hand held method of discharging the spark created during use. Rare to find these early examples and of such quality.
