Description

One of the most impressive and unique diamonds we've ever seen. This gargantuan old European cut – weighing a guaranteed 7.21 carat – displays a natural fancy brown. The rich, almost copper coloured stone displays clear flashed of orange and, despite the depth of the colour, still sparkles like made. The diamond has been clarity enhanced to reduce the impact of some of the large inclusions, but the colour is as it was when pulled from the earth. Fine scrolling work in the gallery leads to a plain and slender D-shaped platinum shank. Truly awesome. Accompanied by an independent jewellery report from IGR (#30308944). Cut – Old European cut. Colour – Fancy brown. Clarity – SI3. The diamond has been clarity enhanced. Carat – 7.21. Circa – The diamond is circa 1930, in a modern setting. Measurements – The diamond is approximately 11.6mm in diameter and sits 8.5mm from the finger. Size – I (UK) or 4.25 (US). Complimentary sizing is available, can go up or down. Metal – Platinum. Hallmarked. Video – To view a video of this ring recorded in daylight, please copy / paste the following link into your browser: <https://vimeo.com/439295111>
