Description

An antique silver Omega pocket watch, c1902. The watch has a stem-winding movement which is working nicely. The nicely jewelled movement is signed Omega. The movement is protected by an inner hinged cover. The watch itself measures 50.7mm diameter excluding the winding stem and the loop. The case is silver and has Chester hallmarks for 1902 with the case maker mark for the Dennison Watch Case Company. The case also has the retailer stamp for J G Graves of Sheffield. The outer case is in nice condition with crisp engine turned detail and a vacant cartouche to the back. The inside of the inner dust cover has a small scratch. The acrylic lens is in nice condition with only the odd minor mark from use. The enamel dial is in nice condition. The watch has its original blued steel hands. The watch will be sent in a new presentation box.
