

SA711994

1930s Swiss stem winding
pocket watch.

Price

Sold

Item Reference: SA711994

Date of manufacture: 1930

Description

1930s Swiss stem winding pocket watch. The watch has a 15-jewel stem-winding movement which is working nicely. The watch measures 51mm diameter excluding the winding stem and the loop. It has a good quality gold filled case with screw-on bezel and case back. There are a few short scratches and some rubbing to the plate on the bottom of the watch but other than that, the case is in good condition. The acrylic lens is in good condition. The dial has blued steel hands, a subsidiary seconds dial and an outer minute track. There are a couple of faint hairline cracks but they are difficult to see. The watch will be sent in a new presentation box.
