## Description

Gents 1940s Smiths wrist watch. The watch has a 15-jewel hand-winding movement, Made in England, which is working nicely. The watch measures 31mm diameter excluding the winding crown and the lugs. The case was supplied by the Dennison Watch Case Company, it has a few marks and signs of wear but overall very acceptable for such an early piece. The lens is in good condition. The signed dial is in its original finish with blued steel hands, subsidiary seconds dial and outer minute markers. A new leather strap has been fitted. The watch comes in a new presentation box.
