Description

Gents 9 carat gold Accurist wrist watch, 1966. The watch has a 21-jewel hand-winding movement which is working nicely. The watch measures 33.5 mm diameter excluding the winding crown and the lugs. The case is 9 carat gold and there are hallmarks inside the case back for Birmingham 1966 with a maker's mark for the Dennison Watch Case Co. The case is in nice condition with just the odd minor mark and a couple of small surface scratches to the back. The bottom right hand lug is slightly misshapen although not over noticeable. The back of the watch has a presentation inscription. The lens is in nice condition. The signed dial has minor surface marking and a small indentation at 4 o'clock but overall it is in nice condition. Original gold hands and sub second hand. A new black leather strap has been fitted. The watch will be sent in a new presentation box.
