Description

Gents 1950s Roamer wrist watch. The watch has a Swiss in-house MST 17-jewel hand-winding movement which is working nicely. The watch measures 29mm diameter excluding the winding crown and the handsomely shaped lugs so it would suit a slimmer wrist. The case is gold plated and it is in lovely condition. The case back is stainless steel. The lens is in good condition. The signed dial is in original condition with original hands, a subsidiary seconds dial and outer minute markers. There is a little marking to the dial but not too detrimental at all. A new leather strap has been fitted. The watch comes in a new presentation box.
