Description

Good pair of early 18th century brass candlesticks. Large round spun bases with seamed columns. Nice shape. These date from the turn of the century so around 1700 - 1720. They turn up beautifully as you can see in the pictures. No solder to the joints which is also a bonus. There are a couple of small areas of wear through but basically these are in good condition for their age. PAIRS of these early candlesticks are getting hard to find now in good condition. SIZE; 4 1/2" diameter bases, 7 1/2" high CIRCA; 1700 - 1720
