

SA718387

Omega pocket watch, c1910s

Price

Sold**Item Reference: SA718387****Date of manufacture: 1910**

Description

Omega pocket watch, c1910s. The watch has an Omega gilded movement, lever escapement, which is working nicely. As this is an earlier Omega watch, the serial number will be underneath the dial. The movement is protected by an inner hinged cover. The watch measures 47mm diameter excluding the winding crown and the loop. The case is gold filled and was originally 'guaranteed to last 20 years' and it is still in beautiful condition today. The watch glass has light marking but is very acceptable. The dial has original blued steel hands, a subsidiary seconds dial and outer minute markers. There is a short faint hairline between 12 and 1. The watch comes in a new presentation box.
