

SA718637

Antique goliath pocket watch

Price

Sold**Item Reference: SA718637****Date of manufacture: 1900**

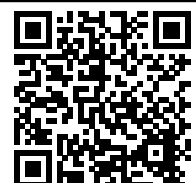

Description

Antique goliath pocket watch. The watch has a stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures an impressive 68mm diameter so significantly larger than a standard 50mm diameter watch. The case is nickel and it is very good just light surface marks to the hinged case back. The thick glass lens has a handsome deep bezel. There are some marks to the lens but they are not too detrimental at all. The dial has a great look with big bold Roman numerals, pin-set blued steel hands and an outer minute track. There is a short hairline by number 2 but it is faint. The watch comes in a new presentation box.
